DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-12, drawn to compounds, compositions, use and process of making where B = phenyl and ring A = piperazine.

Group II, claim(s) 1-12, drawn to compounds, compositions, use and process of making where B = phenyl and ring A = piperidine.

Group III, claim(s) 1-12, drawn to compounds, compositions, use and process of making where B = heterocyclic ring and ring A = piperazine.

Group IV, claim(s) 1-12, drawn to compounds, compositions, use and process of making where B = heterocyclic ring and ring A = piperidine.

Group V, claim(s) 1-12, drawn to compounds, compositions, use and process of making where B and A = other rings not provided for by I-IV above (see pages 7-9 in the specification that discloses different ring systems that don't fall in Groups I-II).

If Group III or Group IV is elected, applicants must further select B ring as was done in Groups I or II. The choices for B ring are disclosed in the specification on pages 7-8.

The choices for ring A are also disclosed on page 9 of the specification.

If Group V is elected, applicants must further select an A and B rings, as were done for Groups I and II.

2. The inventions listed as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The groups relate to compounds of considerable structural dissimilarity in view of the varying choices of ring **B** and **X₂** and **X₁** in ring **A**. The structural feature common to all of the groups cannot be considered a patentable advance over the art given that said feature, namely the piperazine moiety, is old or obvious as evidence by the art applied below as well as additional art cited by applicants.

3. A telephone call was made to Mr. Donald Bird on Jan 4, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

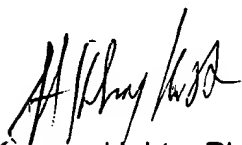

Conclusion

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kahsay Habte, Ph. D. whose telephone number is (703) 308-4717. The examiner can normally be reached on M-F (9.00AM- 5:30PM).
